

## QLD AG SHOWS APP – USER FEATURES AND BENEFITS

### Brief Description

The **Queensland Ag Shows App** focuses on bring together all the Show Societies information, showing events and shows that are happening within their area and across Queensland; giving visitors/customers the ability to purchase tickets within the app; allowing for a streamlined process and consolidating information across the board, making it easier for Show Societies to manage everything under a single application.

### Product & Technical Specifications

- The Mobile Application is built on a cross platform framework, which allows it to be deployed on Android and iOS devices.
- The application uses a central database which is stored on the ECKOO Server.
- Mobile application deployments will be limited to the latest Android and iOS versions as specific functions may only be built on more modern devices.
- The minimum version for Android and iOS are version 10.0.
- The application complies with the latest security polices and state of the art servers to ensure that personal information and details are protected and kept private; including user login details, along with any Payment Card information used to process ticket purchases.
